TO THE PUBLIC.

The Proprietors of the Charter for opening the Navigation of the Catawba and Wateree Rivers, having at length ſeen with much ſatiſfaction, the completion of the Santee Canal, propoſe to recommence their operations for opening the Catawba and Wateree Rivers during the preſent year, as ſoon as the ſtate of the ſaid Rivers will permit.

In the mean while they have determined to double the number of their ſhares for the purpoſe of admitting ſuch perſons as may chooſe to become ſubſcribers. The expences which have been already incurred by the Company amount to one hundred dollars on each ſhare of the preſent number, which, when doubled according to the preſent determination, will reduce it to fifty dollars a ſhare.

The Charter of South-Carolina is in perpetuity, and theſe ſhares are forever exempted from any rate, tax, duty, aſſeſſment or impoſition whatever. The Act of North Carolina, authoriſes the Company to fix and eſtabliſh a toll on all goods and merchandiſe, for 99 years, and exempt their ſhares from any rate, tax, duty, aſſeſſment or impoſition whatever, for the ſame period of time.

The preſent proprietors think it a duty incumbent on them, to inform the public, that a very conſiderable ſum is expected to be raiſed from the ſale of vacant lands, *(which extend two miles on each side of the Catawba river, the whole length thereof from the North Carolina line down to Camden Ferry, a distance of not less than 120 miles, and in which is supposed are reserved to the company, not less than 58,000 or 60,000 acres)* and leſt they ſhould be deferred from engaging in the preſent navigation, by a reference to the enormous expence of the Santee Canal, the ſtockholders think it but juſt that they ſhould declare their opinion of the improbability of the ſubſcribers being called upon for more than 16 dollars on each ſhare per annum, as it would be impoſſible for the works to be carried on longer than for about four months in the year, ſince the labourers will be chiefly employed in the water.

It is further to be remarked, that the Catawba river is looked upon as the moſt proper ſite for the eſtabliſhment of a magazine, foundary and arſenal, for the three ſouthern ſtates, viz. North and South Carolina and Georgia; that ſurveys have been made, and a ſtatement thereof forwarded on this ſubject ſome years ago, to the ſecretary at war; that the ſtate of South Carolina paſſed an act, authoriſing a purchaſe by the United States, of a certain quantity of land within this ſtate; and the Catawba company have offered to releaſe to the United States, any of their lands on ſaid river, for ſuch purpoſe, on a fair valuation. The hour now ſeems to approach for ſuch an eſtabliſhment; not only becauſe it is a time of almoſt profound peace throughout the world, but that the idea is revived by the Preſident of the United States, in his meſſage of the 2d of February, 1802, to Congreſs, wherein he ſays, "beſides the permanent magazines eſtabliſhed at Springfield, Weſt Point, and Harper's Ferry, it is thought one ſhould be eſtabliſhed at ſome point convenient for the ſtates of North Carolina, South Carolina and Georgia, ſuch a point will be found near the borders of the Carolinas; and ſome ſmall proviſion by the legiſlature, preparatory to the eſtabliſhment, will be neceſſary for the preſent year." And nature indeed has pointed out this river as the moſt proper place for ſuch a magazine, from the vaſt quantities of ore which have been diſcovered on the Catawba and its two branches, and there can be no doubt but that ſuch an abundance of metal muſt attract the attention of the engineer, who may be authoriſed to examine and determine on a proper ſite for this eſtabliſhment, particularly as there are already ſeveral furnaces and forges on the abovementioned rivers, at ſome of which ſix pound guns have been caſt and bored, equal to any ever imported or made to the northward.

The company intend for the preſent ſeaſon, to confine their operations to the removal of the obſtructions from Rockey Mount to Camden Ferry, to the opening of a road for a carrying place, and the tranſportation of goods, from above the Falls at Rockey Mount, down to the Old Ferry landing; to the erection of a bridge acroſs the Rockey Creek, and to the building a boat, and eſtabliſhing the Ferry, which is allowed them by law.

At a meeting of the Catawba Company, the 4th of March, 1802, two-thirds of them being present,

On motion, reſolved, That the ſix hundred ſhares in the Company of the Catawba and Wateree Rivers, be ſub-divided into twelve hundred.

That the preſent proprietors be entitled to hold double the number of their preſent ſhares; and that they have beſides a preference to extend the number of their ſhares to one for every ten to which they ſhall be entitled after ſuch ſub-diviſion.

To every new ſubſcriber who ſhall pay 50 dollars, ſhall be entitled not only to the advantages to be derived from the opening of ſaid river; but alſo to a proportionate intereſt in the lands veſted in the Company by the legiſlature of this ſtate.

Reſolved, That 100 ſhares be reſerved to be offered to the ſtate of South Carolina, and that an equal number of ſhares be reſerved to be tendered to the ſtate of North Carolina.

At an anniversary meeting of the Catawba Company, on Tuesday the 10th instant, the following resolves were entered into:—

"That an advertiſement be publiſhed, inviting perſons to contract for the opening of Graves's Ford and Love's Ford ſo deep and wide as to admit boats drawing 2 feet 9 inches water, and 12 feet wide; alſo, for opening a road and carrying place, from above Rockey Mount, to the Ferry landing below, and for conſtructing a bridge acroſs Rocky Creek; alſo, for building a Ferry Boat to ply acroſs the river, at or near the preſent landing at Rockey Mount, alſo for ſurveying the vacant lands, which have been already granted them by the legiſlature. Such undertakers to give approved ſecurity for the faithful fulfilment of their reſpective contracts, and to direct their applications to the Preſident, Judge Grimke, during the ſitting of the conſtitutional court at Columbia, from the 19th to the 24th of April next, or to Charles Tew, the ſecretary, in Charleſton, on or before the 15th day of May next enſuing.

"That the Preſident do eſtabliſh a correſpondence with ſome mercantile houſe in Cambridge, and endeavour to obtain permiſſion to lodge with them the monies of the Company, and that they would diſburſe the ſame, according to the directions of the Company.

"That one hundred ſhares be offered to the citizens of North Carolina, and that they have to the firſt day of January next enſuing, to ſubſcribe for ſuch ſhares; and that General Davie be authoriſed to appoint ſome perſon or perſons in that ſtate to receive ſuch ſubſcriptions on the part of the Company, payable as in the following reſolution:

"That col. Seal, col. Hill, and John Simpſon, eſq. clerk of Lancaſter court, be authoriſed to receive ſubſcriptions from ſuch perſons as are inclined to become proprietors, and who reſide within the limits of this ſtate, and that they take notes, payable to the Preſident and Directors of the Company for opening the navigation of the Catawba and Wateree Rivers on the firſt day of March 1803, and they be authoriſed to deliver receipts for the ſame in the nature of ſcrip, in ſuch form as the Preſident and Directors ſhall appoint.

"That theſe reſolutions, with the late publication in the papers of this city, as far as the Preſident and Directors ſhall deem neceſſary and proper, be inſerted in Cox and Shepard's Gazette of this city, and in the one which is printed in Raleigh, North Carolina, by Joſeph Gales, once a month until the 1ſt of October next.

"That the ſolicitor of the company be inſtructed to adopt the moſt immediate meaſures for the recovery of ſuch balances as appear to be due by ſuch proprietors as have paid none of the requiſitions for the laſt 18 months paſt, and that the ſecretary do furniſh him with a liſt of the names of ſuch defaulters.

"That the following mode be adopted as the uniform rule of transferring the ſhares of the company: "I. A. B. do transfer my right to ſhare No. forty, (the number muſt be in letters and not numerals) in the company for opening the navigation of the Catawba and Wateree rivers, unto C. D. for value received. Signed A. B. Witneſſed by E. F. G. H. Proved on oath, before me, L. M.—J. P."

"That the ſum of one ſhilling and two pence be paid on each ſhare, on the requiſition which ſhall become due, on the third Tueſday of September next enſuing, and the ſame ſum on the third Tueſday of March thereafter.

"*South Carolina,* 180 .

"Received of a note payable to the Preſident and Directors of the Company, for opening the navigation of the Catawba and Wateree rivers, for fifty dollars, which, when paid, will entitle him to be a ſtockholder in the ſaid company."

New Invention.

The IMPROVED SAW-MILL, *for which the subscriber has obtained a Patent.*

THIS improvement ſaves the ſawyer much labour, and the work is alſo much more expeditious. The log being ſlabbed, turned down, and the ſaw ſtarted, the whole operation proceeds without further manual aid; for, the inſtant the cut is finiſhed, the log moves back, and at the ſame time is guaged to the utmoſt exactneſs by the machine, ready for another cut in two thirds of a minute. The ſaw reſumes its action in the log, and thus moves in alternate ſucceſſion until the whole be cut up in any given dimenſions, at which time the mill ſhuts up if required, or at any number of cuts for which the ſawyer prepares, ſo his attendance is unneceſſary.

Any perſon or perſons inclining to purchaſe the privilege of erecting this valuable and ſimple machine, or of adding the improvement, which may readily be affixed to any Saw Mill already in uſe, will pleaſe to apply to the ſubſcriber at Weſt Brandywine Bridge, on the Philadelphia and Lancaſter turnpike road, Pennſylvania; or by application to Dr. Thornton, City of Waſhington, who is complete operating model may be ſeen which ſaws in the moſt exact manner, and performs all the various movements of a large ſaw mill. He will alſo furniſh the drawings and deſcription.

In conſequence of numerous applications from perſons whoſe ſaw-mills are not in conſtant operation, and to render the benefit more extenſive, I have thought it proper to reduce the price of the privilege to eighty dollars; and I will return twenty dollars to every perſon who has already purchaſed the improvement at one hundred, that no diſtinction may be made. The improvement may coſt about twenty dollars. The caſtings may be had already executed, at the City of Waſhington, at prime coſt.
