TO THE PUBLIC.

The Proprietors of the Charter for opening the Navigation of the Catawba and Wateree Rivers, having at length seen, with much satisfaction, the completion of the Santee Canal, propose to recommence their operations for opening the Catawba and Wateree Rivers during the present year, as soon as the state of the said Rivers will permit.

In the mean while they have determined to double the number of their shares for the purpose of admitting such persons as may choose to become subscribers. The expences which have been already incurred by the Company amount to one hundred dollars on each share of the present number, which, when doubled according to the present determination, will reduce it to fifty dollars a share.

The Charter of South-Carolina is in perpetuity, and these shares are forever exempted from any rate, tax, duty, assessment or imposition whatever. The Act of North Carolina, authorises the Company to fix and establish a toll on all goods and merchandise, for 99 years, and exempt their shares from any rate, tax, duty, assessment or imposition whatever, for the same period of time.

The present proprietors think it a duty incumbent on them, to inform the public, that a very considerable sum is expected to be raised from the sale of vacant lands *(which extend two miles on each side of the Catawba river, the whole length thereof from the North Carolina line down to Camden Ferry, a distance of not less than 120 miles, and in which is supposed are reserved to the company, not less than [illegible] or 60,000 acres)* and lest they should be deterred from engaging in the present navigation, by a reference to the enormous expence of the Santee Canal, the stockholders think it but just that they should declare their opinion of the improbability of the subscribers being called upon for more than [illegible] on each share per annum, as it would be impossible for the works to be carried on longer than for about four months in the year, since the labourers will be chiefly employed in the water.

It is further to be remarked, that the Catawba river is looked upon as the most proper site for the establishment of a magazine, foundary and arsenal, for the three southern states, viz. North and South Carolina and Georgia; that surveys have been made, and a statement thereof forwarded on this subject some years ago, to the secretary at war; that the state of South Carolina passed an act, authorising a purchase by the United States, of a certain quantity of land within this state; and the Catawba company have offered to release to the United States, any of their lands on said river, for such purpose, on a fair valuation. The hour now seems to approach for such an establishment; not only because it is a time of almost profound peace throughout the world, but that the idea is revived by the President of the United States, in his message of the 2d of February, 1802, to Congress, wherein he says, "besides the permanent magazines established at Springfield, West Point, and Harper's Ferry, it is thought one should be established at some point convenient for the states of North Carolina, South Carolina and Georgia, such a point will be found near the borders of the Carolinas; and some small provision by the legislature, preparatory to the establishment, will be necessary for the present year." And nature indeed has pointed out this river as the most proper place for such a magazine, from the vast quantities of ore which have been discovered on the Catawba and its two branches, and there can be no doubt but that such an abundance of metal must attract the attention of the engineer, who may be authorised to examine and determine on a proper site for this establishment, particularly as there are already several furnaces and forges on the abovementioned rivers, at some of which six pound guns have been cast and bored, equal to any ever imported or made to the northward.

The company intend for the present season, to confine their operations to the removal of the obstructions from Rockey Mount to Camden Ferry, to the opening of a road for a carrying place, and the transportation of goods, from above the Falls at Rockey Mount, down to the Old Ferry landing; to the erection of a bridge across the Rockey Creek, and to the building a boat, and establishing the Ferry, which is allowed them by law.

At a meeting of the Catawba Company, the 4th of March, 1802, *two-thirds of them being present,*

On motion, resolved, That the six hundred shares in the Company of the Catawba and Wateree Rivers, be sub-divided into twelve hundred.

That the present proprietors be entitled to hold double the number of their present shares; and that they have besides a preference to extend the number of their shares to one for every ten to which they shall be entitled after such sub-division.

To every new subscriber who shall pay 50 dollars, shall be entitled not only to the advantages to be derived from the opening of said river; but also to a proportionate interest in the lands vested in the Company by the legislature of this state.

Resolved, That 100 shares be reserved to be offered to the state of South Carolina, and that an equal number of shares be reserved to be tendered to the state of North Carolina.

At an anniversary meeting of the Catawba Company, on Tuesday the 10th instant, the following resolves were entered into:—

"That an advertisement be published, inviting persons to contract for the opening of Graves's Ford and Love's Ford so deep and wide as to admit boats drawing 2 feet 9 inches water, and 12 feet wide; also, for opening a road and carrying place, from above Rockey Mount, to the Ferry landing below, and for constructing a bridge across Rocky Creek; also, for building a Ferry Boat to ply across the river, at or near the present landing at Rockey Mount, also for surveying the vacant lands, which have been already granted them by the legislature. Such undertakers to give approved security for the faithful fulfilment of their respective contracts, and to direct their applications to the President, Judge Grimke, during the sitting of the constitutional court at Columbia, from the 19th to the 24th of April next, or to Charles Tew, the secretary, in Charleston, on or before the 15th day of May next ensuing.

"That the President do establish a correspondence with some mercantile house in Cambridge, and endeavour to obtain permission to lodge with them the monies of the Company, and that they would disburse the same, according to the directions of the Company.

"That one hundred shares be offered to the citizens of North Carolina, and that they have to the first day of January next ensuing, to subscribe for such shares; and that General Davie be authorised to appoint some person or persons in that state to receive such subscriptions on the part of the Company, payable as in the following resolution:

"That col. Seuf, col. Hill, and John Simpson, esq. clerk of Lancaster court, be authorised to receive subscriptions from such persons as are inclined to become proprietors, and who reside within the limits of this state, and that they take notes, payable to the President and Directors of the Company for opening the navigation of the Catawba and Wateree Rivers on the first day of March 1803, and they be authorised to deliver receipts for the same in the nature of scrip, in such form as the President and Directors shall appoint.

"That these resolutions, with the late publication in the papers of this city, as far as the President and Directors shall deem necessary and proper, be inserted in Cox and Shepard's Gazette of this city, and in the one which is printed in Raleigh, North Carolina, by Joseph Gales, once a month until the 1st of October next.

"That the solicitor of the company be instructed to adopt the most immediate measures for the recovery of such balances as appear to be due by such proprietors as have paid none of the requisitions for the last 18 months past, and that the secretary do furnish him with a list of the names of such defaulters.

"That the following mode be adopted as the uniform rule of transferring the shares of the company: "I. A. B. do transfer my right to share No. forty, (the number must be in letters and not numerals) in the company for opening the navigation of the Catawba and Wateree rivers, unto C. D. for value received. Signed A. B. Witnessed by E. F. G. H. Proved on oath, before me, L. M.—J. P."

"That the sum of one shilling and two pence be paid on each share, on the requisition which shall become due, on the third Tuesday of September next ensuing, and the same sum on the third Tuesday of March thereafter.

"*South Carolina,* 180 .

"Received of a note payable to the President and Directors of the Company, for opening the navigation of the Catawba and Wateree rivers, for fifty dollars, which, when paid, will entitle him to be a stockholder in the said company."

Valuable property for Sale.

Will be Sold at Mr. Dougherty's Tavern, in the town of Bladensburg, on Saturday the ninth day of October, to the highest bidder, the following property, viz.

1st. THAT well improved lot of ground lately occupied by Mr. Horatio Ross—the improvements are a large convenient and well finished brick house, two stories high, having on the first floor, four handsome rooms, with fire places in each, and on the second a large and compleat nursery, two bed rooms with a fire place in each, and two well finished store rooms. This lot with the garden contains about three acres of ground, and has on it also all the necessary out houses—a new and compleat chesnut paling incloses the front, (and a new oak and chesnut post and rail fence the garden) annexed to this lot will be sold if required about two acres of timothy meadow, from whence a stream of water from a never failing spring may be conducted over any part of the garden or lot, so as to supply an extensive fish pond or dairy, either of which may be constructed at a small expence; the ground being eligibly situated.

2d. That well improved lot late the property of Maj. David Ross—The improvements are a large and well finished stone house, rough casted, three handsome rooms, and a compleat store room, with a fire place in each, and an entry on the first floor, three bed rooms with a fire place in each—two other small bed rooms and a compleat store room and entry on the second floor—the out houses are an excellent stable and carriage house, and corn house—an excellent stone meat house, an extensive wash house with lodging rooms for the servants, and a compleat store house and dairy, with a never failing spring of water, an excellent garden abounding with a variety of fruit and shrubbery—a neat yard in front and about three acres of meadow ground behind are annexed to this lot, as also about half an acre of high ground, from whence the meadow may be watered the whole year round. In short both of these lots are well improved, and for their many local advantages might at a small expence be rendered as elegant as any property in the state—There will also be sold several unimproved lots in the most central parts of the town, so divided as to accommodate purchasers.

When it is considered this property is within five miles of the capitol of the United States, that the spaw waters at Bladensburgh which have been for some time highly esteemed, will shortly render it perhaps the most considerable watering place on the continent, every person must at once be impressed with the probable appreciation of property situated as this is. Terms of sale one and two years credit, for bonds upon interests from date of sale approved security.
