Doctor FENDALL.

TAKES the liberty to intimate to the Inhabitants of the City of Washington, George Town, and their vicinage, that he means to pay them a visit about the 15th of the month, to exercise his skill in the line of his profession. The doctor's knowledge of the natural history of the human teeth—their adjacent parts, and the disorders to which they are subject, acquired by assiduous attention, unremitted study, and experience of an extensive and successful practice for upwards of twenty eight years, will, he hopes, entitle him to the confidence of all those who wish to employ him.—He loodly flatters himself he has it happily in his power to appeal without fear to such as have been his patients in the states of Maryland, Virginia, &c. for that degree of reputation which his conduct as a dentist has merited, and given him just claim to.—the doctor hopes at least he is considered as entitled to the highest grade among those of his profession in this country.

The Doctor will entreat here on his arrival, to offer to the public his Columbian anti scorbutic Dentifrice for preserving the teeth, gums, sockets, &c. a dentifrice infinitely superior (he thinks) both in elegance and efficacy, to any thing hitherto used for the teeth and gums. It renders the breath sweet and agreeable, is a powerful anti scorbutic, and free from any corrosive quality whatever.—No family, and especially where there are children, should be without this excellent and valuable preparation, which doctor FENDALL avers to be productive not only of those effects and consequences as a sovereign Dentifrice and remedy for the disorders of the teeth and gums, but will also prevent them.

This admirable dentifrice is still sold (only by Doctor FENDALL) at the moderate price of one dollar a pot with directions.
