The subscriber offers for

sale a very valuable MILL SEAT, (the race of which is in part improved) with about twenty acres of handsome low ground annexed thereto, situated on the Shenandoah river three miles below the fork in the county of Frederic and state of Virginia.

This property lies in the heart of a fine farming neighborhood, in which vast quantities of wheat and other grains, are annually raised. Its situation immediately upon the bank of the river, the navigation of which is rapidly progressing, its fine fall, and other natural advantages render it capable of being improved upon the most extensive scale. In the opinion of competent judges a sufficient quantity of water can at all seasons be drawn from the river to work machinery of any extent—This property is unquestionably worth the attention of men of capital. For terms and other particulars apply to the subscriber in the said county, near Stephensburg, or to Mr. Mahlon Atkinson in the same neighborhood. Mr. Atkinson will be in the city of Washington a few days, and will receive propositions from any person who may incline to purchase. Letters post paid directed to the said Atkinson or the subscriber by the Stephensburg mail will be duly attended to. An indisputable title can be made.

Analysis of the Washington Tontine.

THIS institution, as its name implies, is calculated for the benefit of survivorship. Each share owner must, at the time of subscribing, or at some time before the 1st of July, 1805, name a life or lives, on the continuance of which his share must depend—or failing to do this, the existence of his stock will depend upon his own life.

The basis of the institution is upwards of 1200 lots in the city of Washington, averaging 25 feet by 120, and lying principally between George town and the President's square; between that square and the capitol, and adjacent to the navy yard. These at different prices, from 60 to 240 dollars, amount to 200000 dollars. This sum is divided into 4100 shares of 50 dollars each.

It was necessary that the legal estate in the lots should be deposited some where for the use of the company. Trustees, who are men of probity and property, are named in the articles, to whom the property is to be conveyed. These trustees, however cannot dispose of the property. That can only be done by the directors, who are to be chosen in each year by the stock holders. The first election of directors will be held at Stell's hotel, on the first Monday in February next.

It was proper too, that the public should not be imposed upon by bad titles. Two gentlemen therefore, as respectable for their private worth, as eminent for their knowledge in the law, and thoroughly versed in city affairs are pointed out by the constitution of the Tontine, to investigate and to judge of the titles, before the execution of the deeds. These gentlemen happen to be the counsel for the assignees of persons, who have heretofore speculated largely in the city property; a circumstance which rendered it still more proper, because more safe for the public, that they should be selected as the judges of the Tontine titles.

The directors are to sell the lots, and to invest the money arising from sales in stock of the United States. The interest of the stock, until the end of the year 1807, is also to be invested in like stock.—After 1807, it is to be divided, semi-annually amongst the share-owners of existing stock, until the dissolution of the company in 1825, when the capital, the whole of which it is to be presumed, will then exist in stock of the United States, is to be divided amongst the owners of the then existing stock, in proportion to the sum held by each.

These are the leading features of the Tontine—there are many minor regulations, which it would be tedious to enumerate—and which will be better understood by reference to the constitution itself.

I DISCOVERED a few day since (in the Telegraphe) a challenge by Samuel Norwood, Esq Bonaparte against Democrat—

At Annapolis this fall, I proposed running Democrat against Bonaparte, carrying from 110 lbs. to 140 at the discretion of Mr. Norwood; which was rejected. As Mr. Norwood refused the propositian made by me at that time, I am not bound to run the race proposed by him in the Telegraph—Democrat will run Bonaparte over the Anapolis race course, on the third Tuesday in May next, four miles and repeat, for 1000 DOLLARS, play or pay, carrying 126lbs. each; which is the weight they are to carry by the rules of racing, both being seven years last spring—Should Mr. Norwood decline this offer, Democrat will cover mares next spring at the subscribers farm, from the first day of March until the first day of August, at Sixteen dollars each and Fifty cents for the groom. Democrat's pedigree is equal to the pedigree of any horse to be produced, having in him the blood of Medly, Eclipse, Figure, Dove, Godolphin, Arabian, and Mr. Taskin's Filima.

If this proposition is approved of by Mr. Norwood, notice will be given in the Maryland Gazette within forty days from the date hereof.

Georgetown, Jan. 9—4t

FOR Sale, one undivided third of that most valuable estate, held in common by Messrs. Josiah Collins Nathaniel Allen, and the heirs of Samuel Dickenson, deceased, commony called the Lake Company.* The said estate consists of 53 000 acres of land, in Washington, North Carolina, lying between the canal and Long acre, bounding on Lake Phelps, Pungo Lake, and the head of Pungo river. Also, 5 000 acres of Land in Gum Neck, near Little Allegator river, in Tyrell county. The above lands are equal if not superior for fertility of soil, to any land within the state: no part of them are subject to freshes or overflowings from said Lakes or Rivers; but a very considerable part may be laid under water or kept perfectly dry, at pleasure, by means of said canal. This canal formerly cut by said company to join the waters of Lake Phelps and Scuppernong river is 20 feet wide, 6 feet deep, and affords an excellent navigation the distance of 6 miles, on one side of the first tract; on it and on the Lake is the plantation containing about 250 acres of cleared land in a high state of cultivation. The produce in general is for one acre, in wheat, about 30 bushels, in rice from 50 to 60 do. and in Indian corn in good seasons about 63 1-2 do. taking the whole crop together. In dry seasons hemp has been very productive.

On the plantation is a rice machine in complete order, in a building 72 feet long, 42 feet wide, and 4 stories high.

Also a grist-mill with a pair of stones for corn, and a pair of stones for wheat, with two bolting cloths, &c

Also a threshing machine in excellent order.

There is a saw mill which is now repairing, to carry one saw, and is intended to be in the same frame with a merchant mill to carry 3 or 4 pair of stones for manufacturing flour, &c.

There is a good dwelling house two stories high, and all sorts of out houses, besides two barns and stables, &c.

There are 63 negroes above 12 years of age, amongst them are tradesmen of different kinds.—Also 33 negroes under 12 years of age.

There are carpenter's cooper's and blacksmith's tools, besides every kind of plantation utensils, in good order. Horses, hogs, sheep, and about 100 head of cattle, Three large flats for the use of the canal &c.

The medium crops when making rice and corn, is from 220 to 280 casks of rice 600lb. gross each, from 3 to 600 barrels of corn.

Do. when making wheat, from 160 to 190 casks of rice, from 3 to 400 barrels of corn, 1300 bushels of wheat.

Lumber from the saw mill when employed with two saws, has sold from 2500 to 3000 dollars yearly, employing 12 hands.

Flax, cotton and hemp are not included. The rice has sold from 5 to 6 dollars per hundred, these several years past.

Were there 40 hands more on the plantation, the profits might be reckoned at least one third, if not one half more, for each hand, and for as many more as could be put on it.

Certified by
THOS. TROTTER, Superintendant.

Mr. Nathaniel Allen, of the town of Edenton, and one of the company, being desirous to sell his interest in said property, had authorised the subscriber to dispose of the same, in his behalf, and has put into his possession all the necessary documents for the information of the persons desirous or inclined to purchase; the terms of payment, are one fourth down, on the execution of the deed or deeds of conveyance, the remainder at two annual and equal payments, to be secured in the most unexceptionable way.

The manner in which said property has been managed since the year 1787, when the company was formed, makes it a most desirable acquisition to gentlemen of capital, and by far outweighs the inconveniences attending property held in common, as a superintendant having the management and direction of the whole, with one or two overseers under him, renders it unnecessary for the proprietors to be at any farther trouble, concerning said estate, than an annual settlement. It will further appear by the above statement furnished from the company's books by Mr. Trotter the present intendant, that the yearly produce of 250 acres now under tillage amounts to between 8 and 10,000 dollars annually, and that were 40 or 50 more working hands put on the said estate, the profits would nearly be double, with hardly any additional expence, as a much larger quantity of land might be laid under cultivation, with nearly the charges of the present farm. Any application by post to the subscriber, who resides near Plymouth, Washington county, North Carolina, or to Mr. Allen himself, or Mr. Stephen Cabarrus of Edenton, will be duly attended to, and any further information, if required will cheerfully be imparted.
