Valuable Lands for Sale.

By order of the court of Calvert county will be exposed to PUBLIC SALE the following lands the property of the heirs of capt. WALTER SMITH, deceased:

ON Monday the 1st day of April next, will be sold, on the premises, the plantation on which the said capt. Walter Smith formerly resided, containing, by actual survey, 1225 1-8 acres of Land, lying adjoining on Patuxent river, bounded on the southwest by the said river, on the east by a fine navigable creek called Saint Leonard's creek, so that one and a half miles of fencing will enclose the whole Land. The soil of this Land is equal if not superior to any on Patuxent, either for farming, planting or grazing, and in their season the greatest plenty of fine fish and oysters may be had either from the river or creek. A great part of the above Land is covered with cedar fit for posts or fencing.

On Tuesday the 2d, on the premises, will be sold, one other plantation in the forest, at about two miles distance from the former, containing, by survey, six hundred and twenty seven and one half acres of Land, the greater part of which is covered with hickory, chesnut and oak wood, and a great proportion of swamp Land, which, at a trifling expence, might be converted into valuable meadow, belongs to this Land. And,

On Thursday the 4th, on the premises, will be sold, one other plantation, lying adjoining on Chesapeake Bay, bounded on the northeast by the said bay, on the north by a creek called Parker's creek, containing, by survey, 536 1-2 acres of Land; on this Land there are a great proportion of marsh and meadow Land, and a great abundance of fine timber.

It is thought needless to give a fuller description of the above Lands, as it is presumed that those who wish to purchase will view the Lands previous to the day of sale, and on application to Mr. John Turner, who resides near the two first mentioned tracts, they may see the plots of the different tracts of Land, and will shew the Lands contiguous to him, and Mr. Richard Hance, who resides on the last mentioned tract, will shew the outlines of the same to any person wishing to view it.

The above Lands will be sold either in the whole, or be divided into parcels, as may appear most advantageous for the heirs.

The purchasers to give bonds, with approved securities, for the purchase money, to be paid in three annual payments, the interest to be paid yearly, and on the ratification of the sale by the court, and a full payment of the purchase money, and interest thereon, a deed of conveyance will be executed to the purchaser, agreeably to an act of assembly in such cases made and provided.

To THE PUBLIC.

DURING the present year, J. Ogilvie will continue to instruct youth in the city of Richmond. In addition to the various branches of literature and science heretofore taught in his school, his pupils will have an opportunity of studying the higher branches of mathematical science, a more extensive course of natural philosophy, the dead languages, and the French and Spanish languages. In teaching the higher branches of Mathematical science and the dead languages, J. Ogilvie will be assisted by Mr. Wood of this city, whose superior proficiency and skill in Mathematical and Physical science eminently entitle him to public patronage. The French and Spanish languages will be taught by Mr. Bonnadil, with whose assiduity and qualifications in the line of his profession, the citizens of Richmond are sufficiently acquainted. These arrangements, whilst they will considerably diminish J. Ogilvie's emoluments, will greatly enlarge the utility of the school. The principal disadvantages of schools conducted by a single teacher, are, the principal and uninterrupted pressure of exertion, the dissipation of thought amongst such a variety of studies as almost to preclude the possibility of pre-eminent skill or proficiency in any one department of knowledge, and the consequent imperfection and incompleatness of the course. These disadvantages will be radically obviated by the preceding arrangements. Thus modified and extended, the plan of education which will be pursued in this school, will embrace probably, as comprehensive and compleat a course of literature and science as can be reasonably expected in a seminary, so totally destitute of every sort of extrinsic support. The school will be opened on the second Monday in January.

P. S. Mr. Wood will teach the arts of drawing and painting, to such young gentlemen as may be desirous to acquire some knowledge and skill in these highly elegant and useful accomplishments.

To non-subscribers, the price will be ten dollars.

Copy right secured.

IN offering the above work to the public, the proprietors are sensible that excellence is not often attainable; but with candor and truth, equally remote, from arogance and partiality, they can say, that they conscientiously believe it has a just claim to the confidence and patronage of the people.

A map of Virginia has been long and anxiously looked for: None has been published, on the plan of the one now offered, for many years.

The labor, expence, and apparent difficulties, in accomplishing so interesting a work, have deterred several from the arduous undertaking. The proprietors, finding that most of the other states had recently given encouragement to similar productions, and entertaining a high sense of the real dignity and importance of Virginia, embarked in the business, from a well grounded belief, that the magnitude and utility of the work, would insure, if accomplished, a remuneration. And while Virginia is powerfully stimulated with the love of science and virtue, they hope and believe she will view domestic productions, which prove pre-eminently useful, with a generous pride.

Those gentlemen who take subscription papers, are requested to return them to the subscriber, in Petersburg, by the first day of May.

The maps will be ready for subscribers, in the course of the ensuing summer.

Calicoes, Shawls, Pocket Handkerchiefs &c. manufactured by the subscribers near Baltimore, and sold at No. 13 Calvert street.

TO remove that distrust often felt respecting new undertakings, and so prejudicial to manufacturing attempts in America, they think it proper to observe, that nothing is wanting in the business to enable good artists to perform their work here as well as in Europe. That they have these artists; that two of the partners were bred to the business in a factory of the best repute carried on by their father, long afterwards by themselves. They trust that while foreign goods are received without a question, an unreasonable suspicion will not prevent their countrymen from giving that trial to their goods, which only can prove their value. Besides a natural doubt, they know that certain interests, national as well as well as individual, will suggest objections to their undertaking. They have no difficulty in saying, that work of the like kind shall be as well executed here, as in other countries. The colors capable of being fixed, will be found as permanent; the cloths perhaps better substance, and the prices lower than of the imported cottons.

Fifteen Dollars Reward.

RAN AWAY from Thomas King, som time in October last, a Negro Woman, named FAME, whom I had hired to him for one year, near the Eastern Branch, in Prince George's county, Maryland, 5 feet high, very black, small featured, and her face scared very much, and has a great defect in one of her eyes, occasioned by the small pox; 38 years of age, when spoken to she has a down look, one of her upper teeth broken out—Her cloathing, when she went off, was blue striped country cloth; but in all probability she will endeavour to alter it. She has been seen in the city since she ran away. DIOMED.

This extraordinary horse, in

as high health and vigor as he has ever been since his arrival in America, will stand the ensuing season at my stable, three miles below Richmond, on James river, and cover Mares at FIFTY DOLLARS the season, the money to be sent with the Mares; or ONE HUNDRED DOLLARS by insurance, the money for the insurance to be paid in October, and returned in every instance where the mare shall not prove to have been in foal (except the property shall be changed) and all mares sent to Diomed last season, which proved not to have been in foal, are at liberty to come this season, gratis. Notes of hand for the insurance will be expected, to accompany the mares. The season commences the 1st of March, and ends the 1st of August.

The pastures and inclosures are good and secure; the strictest attention will be paid all mares, particularly those in foal and those with colts, who shall have inclosures suitable to their condition—no responsibility for escapes or accidents.

The great size, figure and performances on the turf, added to the high prices which his colts command, gives him a decided superiority over any stallion in America.

To say nothing of the number of his colts, who won in 1803 (the first season they appeared on the turf) which greatly surpassed (in number) those of any other horse, although he came to America many years after several stallions of high fame. In 1804 we find Mr. Tayloe's Hamiltonian winning five times, Mr Homes's Peace Maker four times, Mr. Selden's Lavinia three times, and Sting four times, Mr. Wyllie's Mask twice, Mr. Ball's Florizel, three years old, winning two sweepstakes, which produced his owner 4400 dolls. and many other good racers.

Mr. Ball has refused for this colt 5000 D's. Hamlintonian was sold in May last for 2000 D's.—Peace Maker was sold in October last for 2700 D's—Lavinia in November for 2100, and 2000 refused for Sting.
