THE bill states that on the 8th day of August 1801, the defendant, Owen Roberts mortgaged to the complainant, certain property in the said bill mentioned to secure to the complainant the re-payment of a sum of money lent by him to the defendant; and that afterwards on the 1st day of June 1802, the defendant Roberts having contracted a debt with the defendants Harper and Lyles who although they knew of the previous mortgage to the complainant, procured a deed of trust to be executed by the defendant Roberts and Wife for the property mortgaged to the complainant, to the defendant James Keith, to secure to the defendants Harper and Lyles their claim against the defendant Roberts. The object of the bill is to obtain a decree for the foreclosure of the mortgage and a sale of the property therein mentioned, or so much thereof as will satisfy to the complainant, the sum of money lent to the defendant Roberts, with all interest that has or shall accrue thereon. It is on the complainants motion ordered that he procure a copy of this order to be inserted once in each of three successive weeks before the fourth Monday in December next in the National Intelligencer and Washington Federalist, to the intent that the defendants may have notice of his application, and of the nature of his bill, and that they may be warned to appear here in person or by solicitor, on or before the said fourth Monday in December next, to shew cause if any they can, why the decree should not pass as prayed for in the said bill.

PATENT GUN LOCK.

The subscriber offers for sale

the right of making and using Edward West's improvement in Gun-Locks, which is considered by judges of the utmost importance to every person using fire arms, and more particularly to the army and militia of the United States. There are two very great advantages resulting from this improvement, the first is, that no accident can possibly happen by a gun going off at half cock as it has in that situation no connection with the dog, consequently not with the trigger or any other external part of the lock. It cannot possibly catch at half cock as there is no notch that the dog can catch on, and the counter dog is so placed in the act of cocking, as not to be restored but by the cock first falling or being let down The great security in this improvement ought certainly to recommend it to general use, to avoid the innumerable accidents that has and must unavoidably happen from the present plan, in guns going off at half cock, &c. Application made to Mr Rhodes, city of Washington, will be communicated and attended to, where I shall attend at the sitting of Congress.
