NEW WORK

ENTITLED,

Geographical Compilation,

FOR THE USE OF SCHOOLS;

BEING an accurate description of all the Empires, Kingdoms, Republics and States in the known world, with an account of their population, government, religion, manners, literature, universities, history, civil divisions, ecclesiastical heirarchy, principal cities, with an account of their importance, remarkable monuments, illustrious citizens, commerce and population, &c. &c. &c.

The whole arranged in a catechetical form, compiled from the best American, English, and French authors,

BY D. L. C.

Teacher of Geography.

This work is executed on a plan entirely new in America; TOPOGRAPHY (or the description of the provinces and towns that compose a nation or country,) constitutes one of the most essential parts of it, contrary to the custom which has prevailed in almost all the books of Geography that have appeared in the United States.

In this work, is presented to the public an entertaining account of the Chinese empire, a new description of France according to the recent division into departments compared with that into provinces, as likewise of Belgium, Savoy, Piedmont and the other countries that have been incorporated into the French empire; a detailed & accurate account of the various states of Switzerland, Italy & Germany according to the latest treaties of peace, viz. of Campo Formio, Rastadt, Luneville, Amiens & Presburg; an account of Poland according to the division of 1793; a satisfactory account of the British Isles; a long and accurate description of the United States in general, and of each state and territory in particular, likewise of their districts, counties, cities, towns and villages, &c—Lastly a lengthy description of the Spanish possessions in America according to the last regulation of the cabinet of Madrid; likewise a description of the antient tribes of Israel, of Judea or Palestine under the Romans, of ancient Greece, and the divisions of ancient Italy, Gaul, Spain, Britain, Illyricum, Thrace, Asia Minor and Syria, with several other new articles which will certainly be highly interesting.

This work is printed in a handsome type, on elegant paper, neatly bound & lettered in two Volumes, 12 mo.—Price 2 DOLLS 50 CENTS.

To be had in Georgetown at the Bookstore of J. March, High street; in Washington at Daniel Rapines, New Jersey avenue.

This compilation has been approved, and subscribed to by the President of the United States, by the Secretary of State, by the Directors of the College of Union at Shenectady in the state of New York, of Georgetown and of St. Mary's in Baltimore, in which last institution as likewise in the Ladies' Seminaries, of Mrs. La Combe and of Mr. Bacconnais in Baltimore, of Mrs. Rivardi and Mrs. G eland in Philadelphia, and of Miss De St Memim in Burlington N. Jersey, it has been adopted to the exclusion of all other books of Geography. It has also been subscribed to by the greatest part of the most respectable citizens of Philadelphia, New York, Baltimore and of the state of New Jersey. This makes the author entertain the flattering prospect of seeing his labors rewarded by the suffrage of an enlightened and liberal public, who doubtless will encourage a work which has already been sanctioned by so many able personages and for which no trouble has been spared to render it at the same time instructive and agreeable.
