A LOST BROTHER.

IF SANDFORD EDWARDS, or any of his children (who reſided about thirteen years ago, within thirty miles of Edenton in North Carolina, near Perquimons river, and in a county probably of the ſame name) are now living, and will apply to me by letter or otherwiſe, they may hear of ſomething to their advantage, and very much relieve and oblige an anxious and affectionate brother.

PROPOSALS

FOR PUBLISHING BY SUBSCRIPTION,

A MAP OF VIRGINIA,

Formed from actual Surveys, and the lateſt as well as moſt accurate obſervations.

BY JAMES MADISON, D. D.
Preſident of William & Mary College.

To which will be added
A MAP

Of the greater part of the ſtate of OHIO, from actual ſurveys, including the whole of the Virginia Military tract; with all that part of the ſtate weſt of the Ohio river, to the Indian boundary line

The North-eaſt corner of the map will be ornamented with an intereſting

VIEW OF THE CITY OF RICHMOND.

The ſize of the Map will be 5 feet 6 inches in length, and 3 feet 8 inches in breadth. An ingenious and ſkilful engraver is engaged to execute the work, in a ſtyle not inferior to any ſimilar work in the United States.

CONDITIONS.

The price to ſubſcribers will be eight dollars, neatly mounted, colored, and glazed. One dollar, (to lighten the great expence of publication) to be paid on ſubſcribing.

To non-ſubſcribers, the price will be ten dollars.

Copy right ſecured.

IN offering the above work to the public, the proprietors are ſenſible that excellence is not often attainable; but with candor and truth, equally remote, from arogance and partiality, they can ſay, that they conſcientiouſly believe it has a juſt claim to the confidence and patronage of the people.

A map of Virginia has been long and anxiouſly looked for: None has been publiſhed, on the plan of the one now offered, for many years, when Auguſta was the frontier county.

The labor, expence, and apparent difficulties, in accompliſhing ſo intereſting a work, have deterred ſeveral from the arduous undertaking. The proprietors, finding that moſt of the other ſtates had recently given encouragement to ſimilar productions, and entertaining a high ſenſe of the real dignity and importance of Virginia, embarked in the buſineſs from a well grounded belief, that the magnitude and utility of the work, would inſure if accompliſhed, a remuneration And while Virginia is powerfully ſtimulated with the love of ſcience and virtue, they hope and believe ſhe will vie domeſtic productions which prove pre-eminently uſeful, with a generous pride

The members of the General Aſſembly, and other gentlemen, who have ſeen a rough draught of the map are requeſted to inform their friends, as the impracticability of ſhewing the map to all who may be diſpoſed to ſubſcribe muſt be apparent.

Those gentlemen who take ſubſcription papers are requeſted to return them to the ſubſcriber, in Peterſburg, by the firſt day of May.

The maps will be ready for ſubſcribers, in the courſe of the enſuing ſummer.

WILLIAM PRENTIS.

Peterſburg, Feb. 1805.

Subſcriptions received by SAMUEL H. SMITH, and by ſeveral gentlemen with whom ſubſcription papers are lodged.

To THE PUBLIC.

DURING the preſent year, J. Ogilvie will continue to inſtruct youth in the city of Richmond. In addition to the various branches of literature and ſcience heretofore taught in his ſchool, his pupils will have an opportunity of ſtudying the higher branches of mathematical ſcience, a more extenſive courſe of natural philoſophy, the dead languages, and the French and Spaniſh languages In teaching the higher branches of Mathematical ſcience and the dead languages, J. Ogilvie will be aſſiſted by Mr. Wood of this city, whoſe ſuperior proficiency and ſkill in Mathematical and Phyſical ſcience eminently entitle him to public patronage The French and Spaniſh languages will be taught by Mr. Bonnadil, with whoſe aſſiduity and qualifications in the line of his profeſſion, the citizens of Richmond are ſufficiently acquainted. Theſe arrangements, whilſt they will conſiderably diminiſh J. Ogilvie's emoluments, will greatly enlarge the utility of the ſchool. The principal diſadvantages of ſchools conducted by a ſingle teacher, are, the principal and uninterrupted preſſure of exertion, the diſſipation of thought amongſt ſuch a variety of ſtudies as almoſt to preclude the poſſibility of pre-eminent ſkill or proficiency in any one department of knowledge, and the conſequent imperfection and incompleatneſs of the courſe. Theſe diſadvantages will be radically obviated by the preceding arrangements Thus modified and extended, the plan of education which will be purſued in this ſchool, will embrace probably, as comprehenſive and compleat a courſe of literature and ſcience as can be reaſonably expected in a ſeminary, ſo totally deſtitute of every ſort of extrinſic ſupport. The ſchool will be opened on the ſecond Monday in January.

P. S. Mr. Wood will teach the arts of drawing and painting, to ſuch young gentlemen as may be deſirous to acquire ſome knowledge and ſkill in theſe highly elegant and uſeful accompliſhments.

American Printed goods.

Calicoes, Shawls, Pocket Handkerchiefs, &c. manufactured by the ſubſcribers near Baltimore, and ſold at No. 13 Calvert ſtreet.

TO remove that diſtruſt often felt reſpecting new undertakings, and ſo prejudicial to manufacturing attempts in America, they think it proper to obſerve, that nothing is wanting in the buſineſs to enable good artiſts to perform their work here as well as in Europe. That they have theſe artiſts; that two of the partners were bred to the buſineſs in a factory of the beſt repute carried on by their father, long afterwards by themſelves. They truſt that while foreign goods are received without a queſtion, an unreaſonable ſuſpicion will not prevent their countrymen from giving that trial to their goods, which only can prove their value. Beſides a natural doubt, they know that certain intereſts, national as well as well as individual, will ſuggeſt objections to their undertaking. They have no difficulty in ſaying, that work of the like kind ſhall be as well executed here, as in other countries. The colors capable of being fixed, will be found as permanent; the cloths perhaps better ſubſtance, and the prices lower than of the imported cottons.

I DISCOVERED a few day ſince (in the Telegraphe) a challenge by Samuel Norwood, Eſq Bonaparte againſt Democrat—

At Annapolis this fall, I propoſed running Democrat againſt Bonaparte, carrying from 110 lbs to 140 at the diſcretion of Mr. Norwood; which was rejected. As Mr. Norwood refuſed the propoſitian made by me at that time, I am not bound to run the race propoſed by him in the Telegraphe—Democrat will run Bonaparte over the Anapolis race courſe, on the third Tueſday in May next, four miles and repeat, for 1000 DOLLARS, play or pay, carrying 126lbs. each; which is the weight they are to carry by the rules of racing, both being ſeven years laſt ſpring—Should Mr. Norwood decline this offer, Democrat will cover mares next ſpring at the ſubſcribers farm, from the firſt day of March until the firſt day of Auguſt, at Sixteen dollars each and Fifty cents for the groom. Democrat's pedigree is equal to the pedigree of any horſe to be produced, having in him the blood of Medly, Eclipſe, Figure, Dove, Godolphin, Arabian, and Mr. Taſkin's Silima.

If this propoſition is approved of by Mr. Norwood, notice will be given in the Maryland Gazette within forty days from the date hereof.

PROPOSALS

FOR

PUBLISHING BY SUBSCRIPTION,

A New Work on the principles of Steam Engines to be entitled,

Young Steam Engineer's GUIDE.

By OLIVER EVANS.

TO CONTAIN

A General deſcription and inveſtigation of the principles of the engines uſed in England where the ſteam, is uſed as an agent to form a vacuum, and to act with a power only equal to the weight of the atmoſphere.

Alſo of the new and ſimple principle diſcovered by the author, of obtaining unlimited power, and working ſteam engines with a power equal to five or ten atmoſpheres, either againſt the preſſure of the atmoſphere in the moſt ſimple form, or with the uſe of a vacuum to take off that reſiſtance; and to ſhew why doubling the fuel on the new principle produces about ſixteen times the power and effect

Drawings of the ſimple and cheap, new form of engines ſuitable for producing and containing ſuch great power in the leaſt ſpace, and with the leaſt weight, to fit them for various purpoſes, for which no others would anſwer.

Tables of the ſize and proportions of engines of the different powers, from the power of one man to that of one hundred horſes, to ſuit different purpoſes; with the aſſiſtance of a profeſſional Engliſh ſteam engineer of long experience and great abilities, capable of communicating many ſecrets in the engineers art, that will render the work highly uſeful, and which are not to be found in any other work.

The author hopes to be able to ſhew, and demonſtrate principles (part of which he has already in uſe) by the application of which, he can make engines at half the price of thoſe heretofore uſed; not exceeding one fifth, or perhaps one tenth part of the weight to produce equal powers, and which will not require more than one third, or one fourth part of the fuel and which will ſerve the great purpoſes of raiſing water to water our cities, of ſawing ſhip timber, mahogany and marble ſtone, grinding malt, paints, chocolate, plaiſter and turning lathes, &c. in cities—ſawing timber on or near navigable waters; grinding grain draining mines, working forges and furnaces where water falls cannot be obtained—propelling boats againſt the ſtream, on all our rivers where hand oars are now uſed, and tranſporting heavy burdens on turnpike roads, with great advantages over the means by which theſe things have hitherto been done. He may alſo touch on ſeveral other mechanical and philoſophical ſubjects which may lead to uſeful diſcoveries.

CONDITIONS.

The work ſhall be printed on good paper and neatly bound. But as it will be original and the ſubject abſtruſe, and will be extended no farther than the author may be enabled to proceed in, no eſtimate can be made of the expence of the engravings, nor of the price of the book. He can only ſay that it will be delivered to ſubſcribers on the loweſt terms that can be afforded; and ſhould it exceed Four Dollars a copy, they ſhall be at liberty to refuſe the work.

A liſt of the ſubſcribers will be annexed.

Subſcribers for ſix copies ſhall receive the ſeventh gratis.

PUBLIC SALE.

BY virtue of a decree of the circuit court of the diſtrict of Columbia for the county of Waſhington, in the ſuit of Samuel Speake complainant, againſt Joſhua Gragg, defendant in chancery, will be ſold to the higheſt bidder at public auction on Saturday the ſixteenth day of March next, at the Union Tavern, in George Town, all that part of two lots of ground in Thomas Bealles addition to George Town, known and diſtinguiſhed by the numbers one hundred and thirty-four and one hundred and thirty five, beginning for the firſt part at ſixty feet ſouthardly, from boundary number thirty-ſeven on Waſhington ſtreet and running eaſtwardly parallel with Dumbarton ſtreet ſixty feet, then ſouthwardly parallel with Waſhington ſtreet ſixty feet, to lot number one hundred and forty-four, then weſtwardly with ſaid lot to Waſhington ſtreet, then with ſaid ſtreet northwardly to the beginning, being and intended to be the half of ſaid lot—beginning for the ſecond part of lot number one hundred and thirty-five, being the ſouth half of ſaid lot number one hundred and thirty-five and adjoining lot number one hundred and thirty four, at the end of the third line of lot number one hundred and thirty-four, and running reverſe with ſaid third line ſixty feet, then eaſtwardly parallel with Dumbarton ſtreet ſixty feet, then ſouthwardly parallel with Waſhington ſtreet ſixty feet, then to the beginning, it being and intended for the ſouth half of the above deſcribed lots, with the improvements thereon.

The ſale will commence at 4 o'clock P. M.

The terms of ſale, ready money, or money to be paid immediately on the courts ratifying the ſame, the time of which ratification will be notified in the ſame papers in which the ſale is advertiſed, after the report of the ſaid ſale ſhall be made to the court, which report will not be made until the court commences their next ſitting, for the county of Waſhington.
