IN offering the above work to the public, the proprietors are fenfible that excellence is not often attainable; but with candor and truth, equally remote, from arogance and partiality, they can fay, that they confcientioufly believe it has a juft claim to the confidence and patronage of the people.

A map of Virginia has been long and anxioufly looked for: None has been publifhed, on the plan of the one now offered, for many years.

The labor, expence, and apparent difficulties in accomplifhing fo interefting a work, have deterred feveral from the arduous undertaking. The proprietors, finding that moft of the other ftates had recently given encouragement to fimilar productions, and entertaining a high fenfe of the real dignity and importance of Virginia, embarked in the bufinefs, from a well grounded belief, that the magnitude and utility of the work, would infure, if accomplifhed, a remuneration And while Virginia is powerfully ftimulated with the love of fcience and virtue, they hope and believe fhe will view domeftic productions, which prove pre-eminently ufeful, with a generous pride.

Thofe gentlemen who take fubfcription papers are requefted to return them to the fubfcriber, in Peterfburg, by the firft day of May.

The maps will be ready for fubfcribers, in the courfe of the enfuing fummer.

To THE PUBLIC.

DURING the prefent year, J. Ogilvie will continue to inftruct youth in the city of Richmond. In addition to the various branches of literature and fcience heretofore taught in his fchool, his pupils will have an opportunity of ftudying the higher branches of mathematical fcience, a more extenfive courfe of natural philofophy, the dead languages, and the French and Spanifh languages. In teaching the higher branches of Mathematical fcience and the dead languages, J. Ogilvie will be affifted by Mr. Wood of this city, whofe fuperior proficiency and fkill in Mathematical and Phyfical fcience eminently entitle him to public patronage. The French and Spanifh languages will be taught by Mr. Bonnadil, with whofe affiduity and qualifications in the line of his profeffion, the citizens of Richmond are fufficiently acquainted. Thefe arrangements, whilft they will confiderably diminifh J. Ogilvie's emaluments, will greatly enlarge the utility of the fchool. The principal difadvantages of fchools conducted by a fingle teacher, are, the principal and uninterrupted preffure of exertion, the diffipation of thought amongft fuch a variety of ftudies as almoft to preclude the poffibility of pre-eminent fkill or proficiency in any one department of knowledge, and the confequent imperfection and incompleatnefs of the courfe. Thefe difadvantages will be radically obviated by the preceding arrangements. Thus modified and extended, the plan of education which will be purfued in this fchool, will embrace probably, as comprehenfive and compleat a courfe of literature and fcience as can be reafonably expected in a feminary, fo totally deftitute of every fort of extrinfic fupport. The fchool will be opened on the fecond Monday in January.

P. S. Mr. Wood will teach the arts of drawing and painting, to fuch young gentlemen as may be defirous to acquire fome knowledge and fkill in thefe highly elegant and ufeful accomplifhments.

TO remove that diftruft often felt refpecting new undertakings, and fo prejudicial to manufacturing attempts in America, they think it proper to obferve, that nothing is wanting in the bufinefs to enable good artifts to perform their work here as well as in Europe. That they have thefe artifts; that two of the partners were bred to the bufinefs in a factory of the beft repute carried on by their father, long afterwards by themfelves. They truft that while foreign goods are received without a queftion, an unreafonable fufpicion will not prevent their countrymen from giving that trial to their goods, which only can prove their value. Befides a natural doubt, they know that certain interefts, national as well as well as individual, will fuggeft objections to their undertaking. They have no difficulty in faying, that work of the like kind fhall be as well executed here, as in other countries. The colors capable of being fixed, will be found as permanent; the cloths perhaps better fubftance, and the prices lower than of the imported cottons.
