Fifteen Dollars Reward.

RANAWAY from Thomas King, some time in October last, a Negro Woman, named FAME, whom I had hired to him for one year, near the Eastern Branch, in Prince George's county, Maryland, 5 feet high, very black small featured, and her face scared very much, and has a great defect in one of her eyes, occasioned by the small pox; 38 years of age, when spoken to she has a down look, one of her upper teeth broken out—Her cloathing when she went off, was blue striped country cloth; but in all probability she will endeavour to alter it. She has been seen in the city since she ran away. She has obtained a free pass from a certain Charity Shorty, who has obtained her freedom, and this Negro Fame passes under the said pass as a free woman. If taken up out of the district of Columbia the above Reward will be paid, on delivering her to me, or securing her in any gaol, by applying to me, in Charles county, Maryland, or to Mr Samuel Speake, of the city of Washington; or if taken up in the district ten dollars.

All persons are forewarned harbouring or employing the said Negro Woman, Fame.

American Printed goods.

Colicoes, Shawls, Pocket Handkerchiefs, &c. manufactured by the subscribers near Baltimore, and sold at No. 13 Calvert street.

TO remove that distrust often felt respecting new undertakings, and so prejudicial to manufacturing attempts in America, they think it proper to observe, that nothing is wanting in the business to enable good artists to perform their work here as well as in Europe. That they have these artists; that two of the partners were bred to the business in a factory of the best repute carried on by their father, long afterwards by themselves. They trust that while foreign goods are received without a question, an unreasonable suspicion will not prevent their countrymen from giving that trial to their goods, which only can prove their value. Besides a natural doubt, they know that certain interests, national as well as well as individual, will suggest objections to their undertaking. They have no difficulty in saying, that work of the like kind shall be as well executed here, as in other countries. The colors capable of being fixed, will be found as permanent; the cloths perhaps better substance, and the prices lower than of the imported cottons.

PROPOSALS

FOR PUBLISHING BY SUBSCRIPTION,

A MAP OF VIRGINIA,

Formed from actual Surveys, and the latest as well as most accurate observations.

BY JAMES MADISON, D. D.
President of William & Mary College.

To which will be added

A MAP

Of the greater part of the state of OHIO, from actual surveys, including the whole of the Virginia Military tract; with all that part of the state west of the Ohio river, to the Indian boundary line.

The North-east corner of the map will be ornamented with an interesting VIEW OF THE CITY OF RICHMOND.

The size of the Map will be 5 feet 6 inches in length, and 3 feet 8 inches in breadth. An ingenious and skilful engraver is engaged to execute the work, in a style not inferior to any similar work in the United States.

CONDITIONS.

The price to subscribers will be eight dollars, neatly mounted, colored, and glazed. One dollar, (to lighten the great expence of publication) to be paid on subscribing.

To non-subscribers, the price will be ten dollars.

Copy right secured.

IN offering the above work to the public, the proprietors are sensible that excellence is not often attainable; but with candor and truth, equally remote, from arogance and partiality, they can say, that they conscientiously believe it has a just claim to the confidence and patronage of the people.

A map of Virginia has been long and anxiously looked for: None has been published, on the plan of the one now offered, for many years.

The labor, expence, and apparent difficulties, in accomplishing so interesting a work, have deterred several from the arduous undertaking. The proprietors, finding that most of the other states had recently given encouragement to similar productions, and entertaining a high sense of the real dignity and importance of Virginia, embarked in the business, from a well grounded belief, that the magnitude and utility of the work, would insure, if accomplished, a remuneration And while Virginia is powerfully stimulated with the love of science and virtue, they hope and believe she will view domestic productions, which prove pre-eminently useful, with a generous pride.

Those gentlemen who take subscription papers are requested to return them to the subscriber, in Petersburg, by the first day of May.

The maps will be ready for subscribers, in the course of the ensuing summer.

To THE PUBLIC.

DURING the present year, J. Ogilvie will continue to instruct youth in the city of Richmond. In addition to the various branches of literature and science heretofore taught in his school, his pupils will have an opportunity of studying the higher branches of mathematical science, a more extensive course of natural philosophy, the dead languages, and the French and Spanish languages. In teaching the higher branches of Mathematical science and the dead languages, J. Ogilvie will be assisted by Mr. Wood of this city, whose superior proficiency and skill in Mathematical and Physical science eminently entitle him to public patronage. The French and Spanish languages will be taught by Mr. Bonnadil, with whose assiduity and qualifications in the line of his profession, the citizens of Richmond are sufficiently acquainted. These arrangements, whilst they will considerably diminish J. Ogilvie's emoluments, will greatly enlarge the utility of the school. The principal disadvantages of schools conducted by a single teacher, are, the principal and uninterrupted pressure of exertion, the dissipation of thought amongst such a variety of studies as almost to preclude the possibility of pre-eminent skill or proficiency in any one department of knowledge, and the consequent imperfection and incompleatness of the course. These disadvantages will be radically obviated by the preceding arrangements. Thus modified and extended, the plan of education which will be pursued in this school, will embrace probably, as comprehensive and compleat a course of literature and science as can be reasonably expected in a seminary, so totally destitute of every sort of extrinsic support. The school will be opened on the second Monday in January.

P. S. Mr. Wood will teach the arts of drawing and painting, to such young gentlemen as may be desirous to acquire some knowledge and skill in these highly elegant and useful accomplishments.

I DISCOVERED a few day since (in the Telegraphe) a challenge by Samuel Norwood, Esq. Bonaparte against Democrat—

At Annapolis this fall, I proposed running Democrat against Bonaparte, carrying from 110 lbs to 140 at the discretion of Mr. Norwood; which was rejected. As Mr. Norwood refused the proposition made by me at that time, I am not bound to run the race proposed by him in the Telegraphe—Democrat will run Bonaparte over the Annapolis race course, on the third Tuesday in May next, four miles and repeat, for 1000 DOLLARS, play or pay, carrying 126lbs. each; which is the weight they are to carry by the rules of racing, both being seven years last spring—Should Mr. Norwood decline this offer, Democrat will cover mares next spring at the subscribers farm, from the first day of March until the first day of August, at Sixteen dollars each and Fifty cents for the groom. Democrat's pedigree is equal to the pedigree of any horse to be produced, having in him the blood of Medly, Eclipse, Figure, Dove, Godolphin, Arabian, and Mr. Tafkin's Silima.

If this proposition is approved of by Mr. Norwood, notice will be given in the Maryland Gazette within forty days from the date hereof.
