A Valuable Farm for Sale,

In King George County & State of Virginia.

THIS Farm contains five hundred and thirty-five acres—about three hundred and fifty of which are cleared and divided into three fields with good inclosures;—it is situated on Potomac river, and bounded on the South East side for a mile and half by Rozier's creek, which affords a great abundance of fine fish and wild fowl, crabs, oysters, &c—thirty miles from Fredericksburg, forty four from Alexandria, and fifty from Washington City.

On this land are very extensive shell banks, exclusive of the advantages to be derived from these banks by the lime business, they are very favourable to the production of corn and wheat, and the soil inexhaustible; there are about sixty or seventy acres of this kind of land, and the balance that is cleared of an excellent quality, and a great number of springs of fine water; it can with certainty be classed among the most healthy situations below the falls of Potomac—indeed, the natural advantages attending this place are innumerable.

The improvements are a two story framed dwelling house, sixty-four feet long, commanding a beautiful view of the creek and river; one other house intended for an office, twenty-six feet by eighteen with three rooms and a cellar in good repair; a large house, including a stable for eight horses, a corn house, carriage house, saddle and harness room, and a commodious granary above, and other convenient buildings on the Farm—a small orchard of well chosen apples and peach-trees—The yard and garden inclose this spring, with pales and railing—The whole plantation in good repair, and the land in a great state of improvement.

The terms of Sale will be made known by Mr. Frances Whiting, who in a short time will be a resident of Berkley county, or by the subscriber on the premises.

New Invention.

The IMPROVED SAW-MILL, *for which the subscriber has obtained a Patent.*

THIS improvement saves the sawyer much labour, and the work is also much more expeditious. The log being stabbed, turned down, and the saw started, the whole operation proceeds without further manual aid; for, the instant the cut is finished, the log moves back, and at the same time is guaged to the utmost exactness by the machine, ready for another cut in two thirds of a minute. The saw resumes its action in the log, and thus moves in alternate succession until the whole be cut up in any given dimensions, at which time the mill shuts up if required, or at any number of cuts for which the sawyer prepares, for his attendance is unnecessary.

Any person or persons inclining to purchase the privilege of erecting this valuable and simple machine, or of adding the improvement which may readily be affixed to any Saw Mill already in use, will please to apply to the subscriber at West Brandywine Bridge, on the Philadelphia and Lancaster turnpike road, Pennsylvania; or by application to Dr. Thornton, City of Washington, who is empowered to dispose of the patent right; a complete operating model may be seen which saws in the most exact manner, and performs all the various movements of a large saw mill. He will also furnish the drawings and description.

In consequence of numerous applications from persons whose saw mills are not in constant operation, and to render the benefit more extensive, I have thought it proper to reduce the price of the privilege to eighty dollars; and I will return twenty dollars to every person who has already purchased the improvement at one hundred, that no distinction may be made. The improvement may cost about twenty dollars. The castings may be had already executed, at the City of Washington, at prime cost.
