BOSTON, June 28 1715.

M^r LLOYD S^r

We have been in expectation of Hittie's¹ return untill her letter to her sister, wherein she informs of the apprehension she was in by reason of y^e smale pox att Yorke &c. I should be glad if wth due care of her selfe she might obtaine some safe passage before the summer season were over, etc. ; we are in probabillity of a good yeare if the seasons don't prove too wett which hitherto hinders the makeing of our hay, but I hope will not continue: tell Hitty¹ that Mad^m Lawne is here from Carolina in order for a passage to England about 6 weeks hence. we are in dayly expectations of our new Gouvernors Arivall which will change the face of affairs wth us Our present Gouvernor & the Generall Court being at such difference as to cause there prorouging without settling the Tax and many other necessarie things which will cause some confusion.

I remain y^r Lo father &c
