Hello Boys!
Make Lots of Toys

This Christmas thousands of boys will have bushels of fun building big steel models with the Mysto Erector. Will your boy be one of them? You could not find any gift more fascinating or instructive.

With Erector boys can build over 300 models—battleships, torpedo boats, aeroplanes, siege guns, bridges, elevators, machine shops, skyscrapers and hundreds of other interesting structures. It's great fun.

Send for my **FREE BOOK**
Send me your toy dealer's name and I'll mail you today my Free Book, printed in colors and filled with pictures of many of the Erector models. I will also send you a free copy of my boys' magazine *Erector Tips*; contains photos of boys who build prize-winning models; tells how you can win a prize.

Toy dealers everywhere sell the Mysto Erector, or can get it for you if they haven't it. Eight sizes, \$1 to \$25. Insist on Erector.

The Mysto ERECTOR

With all models over \$3 I give, without extra charge, an Electric Motor. It's a lively one—runs models such as elevators, drawbridges, traveling cranes, machine shops, and many others. No other construction set gives a motor free.

Because the Erector girders have turned-over edges, boys can build faster and easier. The models will not buckle up when building; they are stronger and won't wobble.

A. C. GILBERT, President, The Mysto Mfg. Co., 98 FOOTE ST., NEW HAVEN, CONN.
