You Can't Build A Better Piano

For over forty-three years the Sohmer family has been actively engaged in making the most artistic pianoforte of which its energy, brains and knowledge of music are capable, regardless of cost. The result is one of the two or three really artistic pianos of the world. Yet the prices are most reasonable—Uprights \$450, Grands \$675 and up. "The Pith of the Piano Problem" on request.

 Dumas' hero adventurer is here modeled into a man as we might picture him, "alive," quick, his foil broken at his feet, and a smile on his face. Could we ask a more gallant figure?

At last an important improvement in stockings

The new Kayser invention consists of six strong buttonholes in the top of the stocking, worked on a tape foundation. The garters clasping through these cannot tear these exquisite stockings, and the chances of a "run" are practically eliminated. Every woman who has tested them says that they are the greatest, most needed improvement made in any article of women's apparel for years. This feature enables you to enjoy for so much longer the fine weave and lustrous sheen for which Kayser Silk Hose have always been famous.

Every good dealer has them in all colors, and for just what you pay for the old-fashioned kind.
