The "Different" Gift

The Curtis "Eye Comfort" Lamp combines with the remarkably efficient indirect lighting of the entire room, the decorative effect of the ordinary art lamp. That is, the small lamps at the base of the large X-Ray Reflector shown above may be turned on separately, which gives the purely decorative art lamp effect lighting up the area directly underneath. A separate switch controls the lamp concealed in the powerful X-Ray Reflector. The light from this lamp is directed to the ceiling and from there, reflected, flooding the whole room with its beautiful, pleasing, clear indirect illumination. Here at last is the gift which you will be sure is not duplicated—and you will know its recipients will be sure to keep it and be proud of it, for few of these articles are portable as are as yet in use. It is unequalled as a wedding, holiday, birthday or anniversary present. Its artistic appearance adds to its utility, together with its essential practicality, make it not only acceptable but of permanent value.

A Booklet About It
A booklet fully describing, illustrating and pricing this new and lovely lamp will be mailed on request. Call at our display rooms and see a demonstration of this wonderful lamp.
