ADVERTISEMENTS.

Recognized primarily as manufacturers of Grand Pianos of the highest quality, the builders of the Knabe Piano have always held the distinction of making an Upright Piano only comparable to what is generally found in an instrument of grand form. The tone and the repeating qualities of the action lend to the Knabe Upright every attribute of the Grand.

Such a relief to kneel or bend without
ripping a stocking

How often you feel your silk stockings give, feel the "runs" come, just as you stoop.

The new Kayser But-i-nol invention consists of six strong button holes in the tops of Kayser Silk Stockings, worked on a tape foundation. The garters clasping through these cannot tear these exquisite stockings,

and the chances of a "run" are eliminated. The garters can be shortened or lengthened, so that these button holes come in just the right place, and the clasp can never come loose.

You can secure Kayser But-i-nol Silk Stockings in all colors and for no more than you pay for the ordinary silk stockings.

THE
PATHÉ
Pathephone

Plays all records
of whatever make.

It is equipped with two sound boxes, one for playing PATHÉ DISCS and Edison records, the other for playing Victor and Columbia records. Instead of sharp-pointed needles requiring frequent changing, the PATHÉPHONE uses a Genuine

BALL-SHAPED SAPPHIRE in either a wood or a metal holder, according to whether a soft or a loud tone is desired. The sounds thus reproduced are TRUEST TO NATURE—by an easy up-and-down wave motion instead of the usual lateral system.

Call and hear it demonstrated.
