Spring

CAMMEYER
NEW YORK

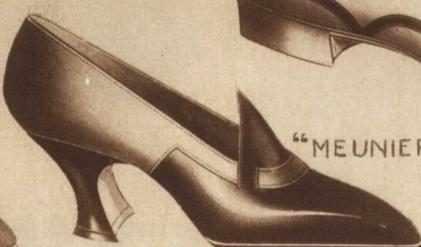

1915

*New York's De Luxe Shoe Shop
Announces An Exhibition of Spring Footwear.*

The individuality always characterizing "CAMMEYER" footwear is admirably demonstrated in this display which correctly portrays the Mode for Spring and Summer. Shoemaking in its highest manifestations is truly an Art, and we have attempted, and succeeded, we believe, in achieving this in our present offerings. The blending of the purely Artistic with the Practical in shoemaking has reached a much higher plane than ever before, in the new "CAMMEYER" models. We invite the critical public to pass judgment on our efforts.
