The Dining Car Refrigerator

Just think of the Refrigerator in the kitchen of a Dining Car, with its sides almost touching the range! A temperature of 100° is frequent, yet all kinds of foods must be kept in that refrigerator, and kept cold and fresh and free from cooking odors of the cramped little kitchen. You know the excellence of the Dining Car menu, but do you know that it is largely due to the

BOHN SYPHON REFRIGERATOR

which is installed in practically every dining car in this country today. It's the Siphon System of rapidly circulating pure, cold, dry air, which enables the Bohn Refrigerator to maintain a uniform temperature of 40°, and the Bohn "Platinum," the greatest heat-resisting insulation ever constructed, that have caused the railroads of this country, almost without exception, to adopt the Bohn Siphon for their dining and refrigerator cars. Does this mean anything to you? Call and see our large line, in both wood and white porcelain. Some of the best styles, including the one illustrated above, are now marked at attractive prices. We can sell you a Bohn from \$10 up. If you cannot call, write for our handsome catalogue. We are the mfrs., not middlemen.

The Gold Stripe Garter Runs.

"The Long Service That I Get From My Gotham

Silk Stockings
is because of the purity of the Silk—there is no loading or artificial weighting of the strands; and then the Gold Stripe of course absolutely stops those fiendish Garter runs, which have ruined more of my Stockings than I can count." One Dollar a pair.

Go to the Shop half way between Fifth Avenue and Broadway, where Silk Stockings are sold exclusively—the Shop where you will find Gold Stripe Stockings in 480 colors and shades—the Shop where your own individual sample will be absolutely matched in 24 hours.
