BY wearing one of my famous rubber reducing garments a few hours a day or at night, your superfluous flesh will positively disappear.

This reduction is accomplished by perspiration, which has long been recognized as the only safe and quick way to reduce. It is endorsed by leading physicians.

Jockeys have been using my rubber garments for reducing for ten years with great success. They are invaluable to those suffering from rheumatism.

If you desire to reduce without dieting or impairing your health or weakening yourself, write me. In addition to the garments here illustrated, my book shows Union Suits, Stockings, Jackets and other articles for women; also Coats and Pants made to measure, and Jockey Riding Suits for Men.

Dr. Walter's Thermo Steaming Bag

THE Dr. Walter Thermo Steaming Bag, as can be seen by the accompanying illustrations, combines all the features of the hot water bag with the known advantages of the steaming process.

The soft cloth pad which fits in the rubber pocket enables you to apply a moist hot compress to any part of the skin, and the hot water bag keeps it hot.

You really need not be told of the advantages of applying moist heat to your skin. It has been recognized for years by the medical profession. Now by this new invention it is possible to be benefited by this method without any inconvenience.

It is no longer necessary to keep wringing out towels that have been dipped in hot water; no longer necessary to keep replacing the fast-cooling application. Once applied, the Thermo Steaming Bag stays moist and hot for a long time.

For Reducing Purposes

WHEN applied diligently to any part of the body, it will reduce the superfluous flesh. This is particularly efficacious on the diaphragm. Any reducing solutions may be used.

For Sore Muscles

NOTHING gives quicker relief from pains in the muscles or stiffness in the joints than hot compress applications. The various sizes and shapes of Dr. Walter's Thermo Compress enable you to give this aid to the best advantage.

For All Purposes
