American Mothers and Babies

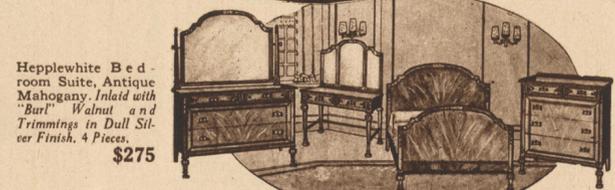

It is rich in the vegetable protein that nourishes, strengthens and lays the foundation for a healthy future. Added to cow's milk it prevents the formation in baby's stomach of the large, hard curds that occur when it is given alone. Its simple method of preparation kills any possible, lurking germs in the milk, making an absolutely safe food for Summertime. Prepared with water alone it is invaluable in Summer Diarrhoea. Write today for a little rag doll for baby to play with, and a copy of "Your Baby's Health." Both FREE. Address JOHN CARLE & SONS, Desk R.H.6, 153 Water St., New York City
