### REDUCES THE TIME AND LABOR SPENT ON IRONING DAY

The Thor Electric Ironing Machine made by the Hurley Machine Company, Chicago and New York, will quickly iron large and small flat laundry pieces. With a little care it will even undertake middles and underwear. The padded roll is operated by an electric motor connected with a lamp socket, while the ironing surface is heated by gas. It is not complicated in construction or operation, and all that is needed in the way of precaution is ordinary care in keeping the fingers away from the hot "shoe." Its value in a family where there is a large wash is best exemplified by one of the tests made in the Institute. In one hour and a half 3 sheets, 1 bedspread, 9 linen towels, 2 bath towels, 8 napkins, 12 table doilies, 1 large centre-piece and 8 handkerchiefs were properly ironed and folded. With a flatiron the same work would take twice as much time, not to mention the discomfort of the heat and the energy of lifting and applying pressure added. The cost was three cents for gas and four cents for electricity. Price, \$19.00.

### PREPARE FOR HOT WEATHER—ENLIST THIS FAN AS AN ALLY

The Emerson Residence Alternating Current Oscillating Fan, made by the Emerson Electric Mfg. Company, St. Louis and New York, in addition to being well constructed develops a strong, steady breeze that may be distributed over an area of 15 to 20 degrees. The arc of oscillation is adjustable instantly through a range of six positions. This fan is a 14-inch size, with six blades, and may be set on desk or table or mounted upon the wall to the great comfort of those entertaining mortals who essay to work or to sleep in the dog days. It can be operated from an electric lamp socket and costs, at 10 cents per kilowatt hour, one-half to two-thirds of a cent an hour to run. Price, \$22.40.

### AN INVALUABLE ELECTRICAL ASSISTANT TO THE HOUSEWIFE OR COOK

The Revco Kitchen Power Unit, made by the Reynolds Electric Company, New York and Chicago, will when connected to a lamp socket operate the kitchen appliances usually turned by hand. This unit is designed to turn any hand-driven kitchen device or culinary utensil having any shape spindle not over one-half inch in diameter. Therefore, instead of the ice cream freezer illustrated, the food chopper, coffee grinder, bread and cake mixers, shiner, bowl, or any eggbeater, cherry sizer, etc., could just as well have been operated. No expert knowledge or special-appliances are necessary. In addition, with the outfit furnished, knives may be sharpened and silverware or cutlery polished. In fact, it does almost everything but set the table and put the baby to bed. Price, \$35.

### OUR SEAL AND CERTIFICATE

The Seal and Certificate of Approval of The New York Tribune, with its widely known policy of rigid advertising standards, must spell "PRESTIGE" in capital letters for any apparatus receiving it. All the household appliances illustrated above have been endorsed after thorough testing of both construction and efficiency, and the manufacturers who are offering them to the public now have the right to use this seal and certificate.

They certify to every housewife that the article so approved is up to standard in every way and that she will make no mistake in buying it. Readers of The Tribune know that the testing done by the Institute is a service rendered to them and to the manufacturers entirely without charge. This being the case, what testimonial could speak more strongly than the verdict embodied in the disinterested approval of The Tribune Institute?

A reproduction of The Tribune Institute Certificate issued to a manufacturer whose article has been awarded approval after test.

### SHOE CRAFT

27 W 38th St. NEW YORK

D.'s and no mail orders. No exchanges. The sale will continue as long as the above styles last.

MAIL ORDERS  
On the regular "ShoeCraft" stock. Send for Booklet 7. Perfect fit guaranteed.

### The Nestlé Permanent Hair Wave

Before the advent of the Nestlé Wave, permanent hair-waving was regarded as an unsatisfactory and ineffective treatment for the waving of the hair. Mr. Nestlé's invention, the result of scientific research, has effected a complete reversal of opinion. Thousands of women now possess beautifully waved hair produced by the Nestlé treatment.

Mr. Nestlé is in attendance and personally supervises all work.

We will be pleased to mail you our illustrated booklet.
