

Below, at the right, are American engineers assembling an American locomotive in France. At the left, a French stream is being utilized to clean boots and furnish a refreshing sozzle. U. S. Official Pictures now at the Lyric Theatre

This, with the picture at the right, shows how the War Camp Community service is making enlisted men feel at home in New York.

If residents of West 27th Street thought they heard some one playing a bugle one night last week, they were probably right. Eighteen buglers got together at the Soldiers and Sailors' Club House of the War Camp Community Service, in the old Earlington Hotel which is now run exclusively for enlisted men, and had a quiet evening together.

# "Oh, I Didn't Know You Could Bake And Roast In It!"

## Look For These Features

DOMESTIC Science and Ideal Fireless Cookstoves have these features which you will find in no other fireless cookstove:  
 Patented Water Seal Top, which locks the heat in the cooking compartments.  
 Patented Steam Valve, which regulates the escape of steam and conserves the heat.  
 Cooking compartments of extra thick, durable aluminum, absolutely seamless.  
 Scientific strata-laid insulation which imprisons heat and resists atmospheric influence.

**Ideal Fireless Cookstove**  
 Solid oak, cabinet-built case, specially vulcanized. Full equipment of Ideal Aluminum cooking utensils. Radiator thermometer.

**Domestic Science Fireless Cookstove**  
 Steel cabinet, with handsome enamel finish. Full equipment of Ideal Aluminum cooking utensils. Radiator thermometer.

SO MANY women express surprise when they see the beautiful bread, cake and pies which are baked and the wonderful meats which are roasted in the Ideal or Domestic Science Fireless Cookstoves. They have formed an idea of the limitations of fireless cooking from the first crude fireless cookers, and don't know that in these two remarkable cookstoves they can do any kind of cooking that a range will do, and with only a small fraction of the fuel.

If you are one of the women who have still to learn that the Ideal and Domestic Science are cookstoves, go to your dealer to-morrow and let him show you the cooking possibilities of these wonderfully efficient cookers. He can tell you not only about the fuel saving, but show you how to get away from the kitchen while the cooking is being done, show you how to keep cool this summer, cut your work immeasurably and have more delicious and more nourishing food.

We have prepared an interesting booklet, illustrating with photographs in color the results of fireless cooking, and giving a number of recipes. **Send for this free booklet.**

 172 Court St., Brooklyn, N.Y.

## HAVE YOU A SWEETHEART?

Son or Brother in training camps in the American Army or Navy? If so, mail him a package of ALLEN'S FOOT-EASE, the antiseptic powder to be shaken into the shoes and sprinkled in the foot-bath. The American, British and French troops use Allen's Foot-Ease, because it takes the friction from the shoe and freshens the feet. It is the greatest comforter for tired, aching, tender, swollen feet, and gives relief to corns and bunions.  
 The Plattsburg Camp Manual advises men in training to shake Foot-Ease in their shoes each morning. Ask your dealer to-day for a 25c. box of Allen's Foot-Ease, and for a 2c. stamp he will mail it for you. What remuneration could be so acceptable?

## Pompeian Beauty Powder

Adds a pearly clearness. Stays on unusually long.
