**Theroz FUEL CUBES**

**What They Are—What They Will Do Cost About a Cent a Cube**

**T**HEROZ Instant Fuel Cubes are about an inch square. By an absolutely new and patented process, a liquid is converted into a solid cube (not a paste) which gives a hot, intense, blue flame—without smoke, odor, soot, or ash, and which cannot explode.

The cube itself does not burn: It is a vapor-gas emanating from the cube, mixed with the oxygen of the air in right proportions, that makes the hottest flame known to science.

**Theroz is the Most Efficient**  
emergency fuel known because—  
With the scratch of a match you have instantly the intense heat of the fuel. There is no waiting for something to heat or start up.

**Theroz is the Most Economical**  
emergency fuel known because—  
A cube costs about a cent and you burn it off only enough to heat what you want heated. If it doesn't require a whole cube, blow it out and put it back in the can for future use. Unlike the fire in the stove or electric devices, there is nothing to get started before you can heat. Nothing to get out of order, and nothing to let go out—consuming fuel all the while—after you are through.

**Theroz is the Safest**  
fuel known because—A Theroz Cube can not go to a liquid while it is burning. Because the vapor and not the cube burns, Theroz is absolutely safe. It never can explode. A burning cube of Theroz dropped on the carpet (or elsewhere) can be smothered without burning the carpet.

Theroz eliminates danger—the danger of spontaneous combustion—of explosion—and of ignition through heat. You must touch a flame to a Theroz Cube to make it burn—a lighted cigar will not ignite it.

**Theroz Blue Flame Stove**  
To get the full benefit of a Theroz Fuel Cube it must be burned in the Theroz Blue Flame Stove—a patented device designed scientifically to intensify the heat of Theroz Fuel Cubes. The burner has numerous open ports which act like gas-tips. It is at the ports that the vapor from the fuel and the oxygen from the air unite and ignite, throwing the full intense heat to the utensil above.

1 Cube: tea or coffee; heats can of soup, beans, etc.  
1 Cube: two eggs; cooks cereal; heats flat-iron (without soot).  
1/2 Cube heats shaving water; curling-iron (without soot).  
2 Cubes cook the roadside lunch: creamed chicken, fried steak.

1/4 Cube will heat baby's bottle.  
2 Cubes will fry ham and eggs; make pancakes, fry fish.  
2 Cubes: Welsh rabbit; chaffinch cooking; coffee percolator.

**BASIC PRODUCTS CORPORATION** Woolworth Tower, New York City

**Here's a Big Saving If This Is Your Size**

Will your space accommodate a Refrigerator 35 1/2 inches wide by 20 inches deep by 66 inches high? If so, do not miss the present opportunity to secure a

**NO. 13 1/2 SANITOR REFRIGERATOR**  
(Ice capacity, 210 pounds)  
**at \$51.00 (List Price, \$93.00)**

The end of the summer season finds us overstocked on this one model. Because of certain structural changes in our new model of this size, we prefer to make this radical price sacrifice rather than carry over the stock into a new season. This situation creates, for you who can accommodate this size, an opportunity that is without precedent. Naturally, we have only a limited number to offer at the above price.

**SANITOR IDEAL REFRIGERATORS and REFRIGERATORS**  
are built in the same factory, by the makers of the world-famous **BOHN SYPHON REFRIGERATORS**

which are installed in the finest homes and greatest hotels in the world, and in the refrigerator and dining cars of practically every railroad in this country. When thorough comparison is the basis for selection, **BOHN SYPHON REFRIGERATOR** is almost invariably the choice.

**SANITOR REFRIGERATORS** are of all oak exterior construction, lined with genuine fused porcelain-steel (not enamel paint.) They have a highly efficient 8-layer insulation, front-draw, highest quality hardware, etc.

**IDEAL REFRIGERATORS** are the new and already popular ALL-METAL type, especially desirable in most climates.

In addition to No. 13 1/2 Sanitor, we are making a number of exceptionally attractive price concessions on various types and sizes. Prices start at \$16.50. Call if possible. Otherwise phone or write for catalog.
